# Keep Your Community Safe from COVID-19

As the international COVID-19 pandemic spreads, resident safety is more important than ever. Fortunately, you can help protect your community by using their preferred pharmacy, Guardian Pharmacy.

---

## Community Security

One of the best ways to protect your residents and community is to limit the number of outside vendors who visit your property. Your community has already selected Guardian as their trusted – preferred pharmacy partner and we're currently providing safe deliveries on a daily basis. By getting more of your residents onboard with Guardian, you can keep them safer by reducing outside traffic in the community.

## Pharmacy Security

Unlike retail community pharmacies, Guardian is not open to the public. As a closed-door pharmacy, our team follows strict safety precautions like limiting person-to-person contact in the workplace. By keeping our team safe, we can keep your residents and staff safe too.

## National Resources & Supply Chain

Right now, having a reliable supply of medications is a top concern for communities everywhere. Our team works with several drug wholesalers and distributors nationwide, meaning we have a deep and trusted supply channel to get the medications your residents need.

## OTC Deliveries

When responsible parties visit public pharmacies to pick up OTCs, or schedule OTC deliveries from another company, that increases the risk of contagious individuals visiting your community. Guardian delivers over-the-counter medications with the rest of your residents' drug regimens, helping to increase safety and security for your community.

## Local Support

Our team works nearby, so we know exactly what's going on in your community's area. We are taking every precaution against COVID-19, because it affects your residents and our own families. We are committed to keeping everyone as safe as possible.

## Professional Preparation

Guardian has been in close contact with the CDC (Centers for Disease Control and Prevention) and the CMS (Centers for Medicare & Medicaid Services). We have pandemic and contingency plans in place, and we can utilize other pharmacy locations if communities need to transfer or evacuate residents.

## Direct, Reliable Communication

Our pharmacists are here to answer any questions your residents might have. Beyond our personal communication, our IT capabilities also allow us to relay messages using methods like email and virtual meetings in the instance of a crisis. As the community's preferred pharmacy, we provide and coordinate the medical administration records to the community unlike the retail pharmacy you use. If the community is using electronic medical administration records, we are the only pharmacy linked directly into their system therefore allowing direct electronic communication with the community and physicians.

## Specialized Support

Guardian Pharmacy is a team of specialists. We have licensed pharmacists, nurses, and pharmacy technicians and many other additional resources on our side to keep your community prepared and protected.
